WORK EXPERIENCE

FRONT- END DEVELOPER

Laboratoria | Oct 2019 - May 2020

- Developed websites using HTML5, CSS3, JavaScript React, and Node.Js
- Created work based on user stories in which I had to meet the acceptance criteria of each one to move on to the next.
- Worked with agile methodologies such as: SCRUM, agile, Kanban, flowcharts.
- Applied my knowledge of different technologies(Node.js, APIs consumption, Google Firebase, Responsive web design , Git, GitHub and React) in several projects.

SALES MANAGER

Pronua | May 2018 - Oct 2019

- Processed customer sales information for sell outs analysis
- Registered news products on our database.
- Managed customer orders and delivered them to the corresponding areas.

Achievements
- I reduced the processing times by automating sell out templates and product registration files.
- I reduced to 50% the time to make weekly sell outs, from 6 to 3 days.
- I reduced the time of order data entry by 60% .
